character qualities I am creative person with sense of humour and good eye for detail. I am optimistic and comprehensible so I like to work with people. I can easily work as a dedicated member of any team. I have always been self - disciplined person with a high responsibility for the process of managing the tasks that have been assigned to me. In free time I love to disappear in local streets and takes photographs of daily life. I look for simplicity in every part of art. New challenges and ideas are my passion.
